The Canadian Cartographic Association

A Canadian Cartographic Association is proposed as a private, non-profit organization of members who are interested in the study and furtherance of cartographic communication. Anyone is eligible for membership who is interested in the art, science and practice of cartography — it has interest equally for the planning office or the classroom. We know that you will find your participation in the Association enjoyable, informative and instructive.

Above all, we wish your fullest participation in the activities of the Association. Do feel free to write to us or raise, at this Inaugural Meeting, ideas that you may have to enhance the value and usefulness of the Association.

The Resources Mapping Division, Lands Directorate, Environment Canada, is pleased to sponsor this Inaugural Meeting.
